Why Star Micronics?

Star Micronics, one of the world's largest point of sale solutions providers, is an established, industry-friendly company with over 60 years of experience in crafting high-quality, cost-effective solutions. Staying at the forefront of technological innovation, coupled with years of proven product development and manufacturing expertise, Star has firmly positioned itself as one of the most innovative companies in the industry.

We look forward to welcoming you into the Star Family!

- Responsive to industry trends and digital transformation
- Large distribution channel with global support and inventory
- Integration team supports ISV development
- Live technical support – corporate experience with a personal touch
- Integrated with thousands of POS software solutions
- Unified and sleek designs with simple user experience
- Latest technologies (online ordering, mPOS, etc.)

Wide Range of Feature-Rich Products:

- Thermal, Impact, Multifunction, Label, and Portable Printers
- Secure Cash Drawers
- Scales and Scanners
- Stands, Mounts, and Enclosures
- Customer Display, mC-Sound, and Accessories
- Antimicrobial Film Covers and Sneeze Guards
- Customer Engagement Solutions
- SDK and Integrations
- And More!

Always Leading - Always Innovating

Star Technology Spectrum

Star provides various technology solutions across the technology spectrum, from native to web-based apps, to help you reach your POS goals.

Our technologies, paired with our dedicated integration support team, allow you to reduce integration cost and time.

Native Applications

Commands

Commands

- Detailed (perfect) control
- Strong flexibility for how you want your peripherals to work

StarPRNT SDK

Swift/Objective - C, Java, C#, Xamarin

- Many APIs supported, including peripherals such as scanners and scales
- User-friendly, especially for mobile OS programmers (no need to read/study command manual)
- No need to install software on the end-user side
- Works offline

StarXpand SDK/StarIO10

Industry-first SDK for Star printer control for the cross-platform framework React Native

- Uses StarIO10 framework which features asynchronous communication, an emulation-free design, human-readable command creation, faster printer search, and a logging function between the OS and printer.

Drivers

Drivers

- Well-known control method
- Simple technology — just install the driver on the customer's side and apply settings

PassPRNT*

URL Scheme, HTML

- Simple way for apps to print with very little integration required
- Receives and outputs the print data

FuturePRNT

- Plug-and-play marketing and setup tools
- Easy-to-use and customizable

```

Web-Based Applications

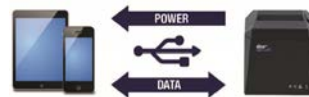

WebPRNT
HTML
<ul style="list-style-type: none"> • User-friendly for web programmers, including peripheral control • Javascript and SDK available, simply embed Javascript in SDK package into your HTML file • OS-free (multi-platform)

CloudPRNT
Star Protocol – HTTP to Pass a REST / JSON API
<ul style="list-style-type: none"> • Extremely user-friendly for web programmers, including peripheral control • Print from the Cloud or an on-site server • No need to prepare a host device on-site (remote control) • OS-free (multi-platform)

SteadyLAN
Say Goodbye to Unstable WLAN Signals
<ul style="list-style-type: none"> • Direct data transfer between iOS, Android, and Windows devices and the printer via Apple Lightning or USB-C® cable • Direct Ethernet connectivity to devices from the wired Ethernet port of the printer • Device charging via Apple Lightning cable or USB-C® cable • Peripheral control (scanner, display) via printer USB host ports

Android Open Accessory
<ul style="list-style-type: none"> • Works seamlessly with any Android device - no need for setup, printer keeps Android devices powered

PromoPRNT*
<ul style="list-style-type: none"> • Create custom promotions from templates • Improve customer acquisition, engagement, and retention

Apple AirPrint
Zero Integration
<ul style="list-style-type: none"> • Dedicated solution for Apple devices • Leverage Apple consumer technology

ACCESSORIES

mUnite Stand

- 3 Models for mC-Print3, mPOP®, and TSP143III/TSP654II
- Universal VESA Mount
- Hidden Cable Management
- Supports any Tablet or Touchscreen Device

 [Launch mUnite Selector](#)

mC-Sound

- High Quality Sound (89dB)
- 16 Pre-Recorded Sounds Available
- Records Custom User Sounds
- Sound Converter Tool Available for Integration

Customer Display

- Customer facing options, to confirm orders, sign for credit cards, etc
- A complete and compact solution
- Easy to use for both customer and employee

Finishing Touches to Unify Your POS

Make it a Bundle!

mC-Print3

The mC-Print3 is the mCollection's 3-inch POS printer with front paper loading and a splash-proof and insect-proof design.

See page 12

mPOP®

Star Micronics' mPOP®, Mobile Point of Purchase is the first hybrid for tablet POS that combines a cash drawer and printer peripheral.

See page 12

TSP143III

Star Micronics' TSP143III is offered with WLAN, LAN, Bluetooth, or USB interface connection for an easy-to-use and ready-to-go installation.

See page 13

Shoulder Strap

- Comfortable, high-quality wearable strap for on-the-go transactions
- Compatible with the SM-T300 family of portable printers

Charging Cradle

- Durable charging cradle with modern, space-saving design
- Can be used to transform any compatible portable printer into a desktop printer
- Compatible with our SM-L300 series of portable printers

POSShield

- Limits the Spread of Germs
- 30" Wide and 33" Tall
- No Countertop Mounting or Drilling Required
- Adjustable Mounting Pole
- Lightweight and Portable
