UBX-110
Ultra Compact Digital Signage

Advantech provides customized digital signage solutions for diverse applications, enhancing customer engagement and operational efficiency while supporting growth and adaptability.

Support Triple Display

8K (via USB-C) & 4K (via two HDMI)

Powerful Intel® Core™ processor

Enhance Data Security

Product Name	Part Number	Product Description
UBX-110	UBX110K2401-CT	UBX-110K, N97, 8GB RAM, 128GB SSD, Wifi/BT, Win11 IoT LTSC

Exceptional Computing Performance

Achieve top-tier performance with Intel's 12th Gen processors, designed for diverse applications. These processors ensure high speed, efficiency, and seamless multitasking

Retail

Enhanced Data Security

Protect sensitive business data with a built-in independent TPM 2.0 chip, offering secure encryption and authentication for robust defense against unauthorized access

Hospitality

Maximize Storage Flexibility and Reliability

Dual M.2 2280 SSD slots support RAID 0 for performance or RAID 1 for data redundancy, ensuring smooth operations and secure data backup

Public Space

Enhanced Visual Experience

Boost display capabilities with support for up to three screens—8K via USB-C and two 4K HDMI outputs—ideal for dynamic visuals and multitasking efficiency

Transportation

Safe Installation and User Touch

Features an x-type thermal isolation cover that prevents overheating, ensuring safe touch, reliable performance, and durability in demanding environments
