

# Have you got your new ZT111 demo units yet?

Budget can be brilliant too. When a desktop printer isn't enough, and you're ready to add an industrial printer, don't sacrifice quality over budget. The ZT111 gives you more—more features, more longevity, more security, and more uptime.

## Greater Functionality at a Fraction of the Cost

From setup utilities to built-in security settings, to ongoing visibility into your supplies usage, Zebra make it easy to integrate and operate, giving you more without the added cost.

## The Key Features You Want

Want 300 dpi high-resolution printing? You've got it, and more. With fast print speeds up to 10 ips at 203 dpi, intuitive media loading with color-coded touch points and adjustable media sensors.

## Connect Your Way

The ZT111 makes it easy with plenty of connectivity options including Serial, Ethernet, a second Ethernet port or 802.11ac Wi-Fi™, and USB Host port. You can even tap, pair and print with compatible NFC enabled device.

## Maximize Your Workspace

Save workspace with the ZT111's small footprint, compact dimensions, and bi-fold door that reduces the height needed to open it.

## Save Time and Effort for IT

ZT111 is easy to integrate into your existing network as it is backwards compatible and features Printer Emulations to replace other brands without having to change label formats or rewrite code.

**Discover the new ZT111 Industrial Printer and claim your discount today!**
