Do Labels Differently™

It's time to make a change to the way you do labels. Efficiency, quality and customization are crucial for your success, and while you may be comfortable with the overly complex multistep processes and stockpiling preprinted color label rolls—or the blandness of black-and-white—now is the time to break free from the conventional and embrace the new era of label printing.

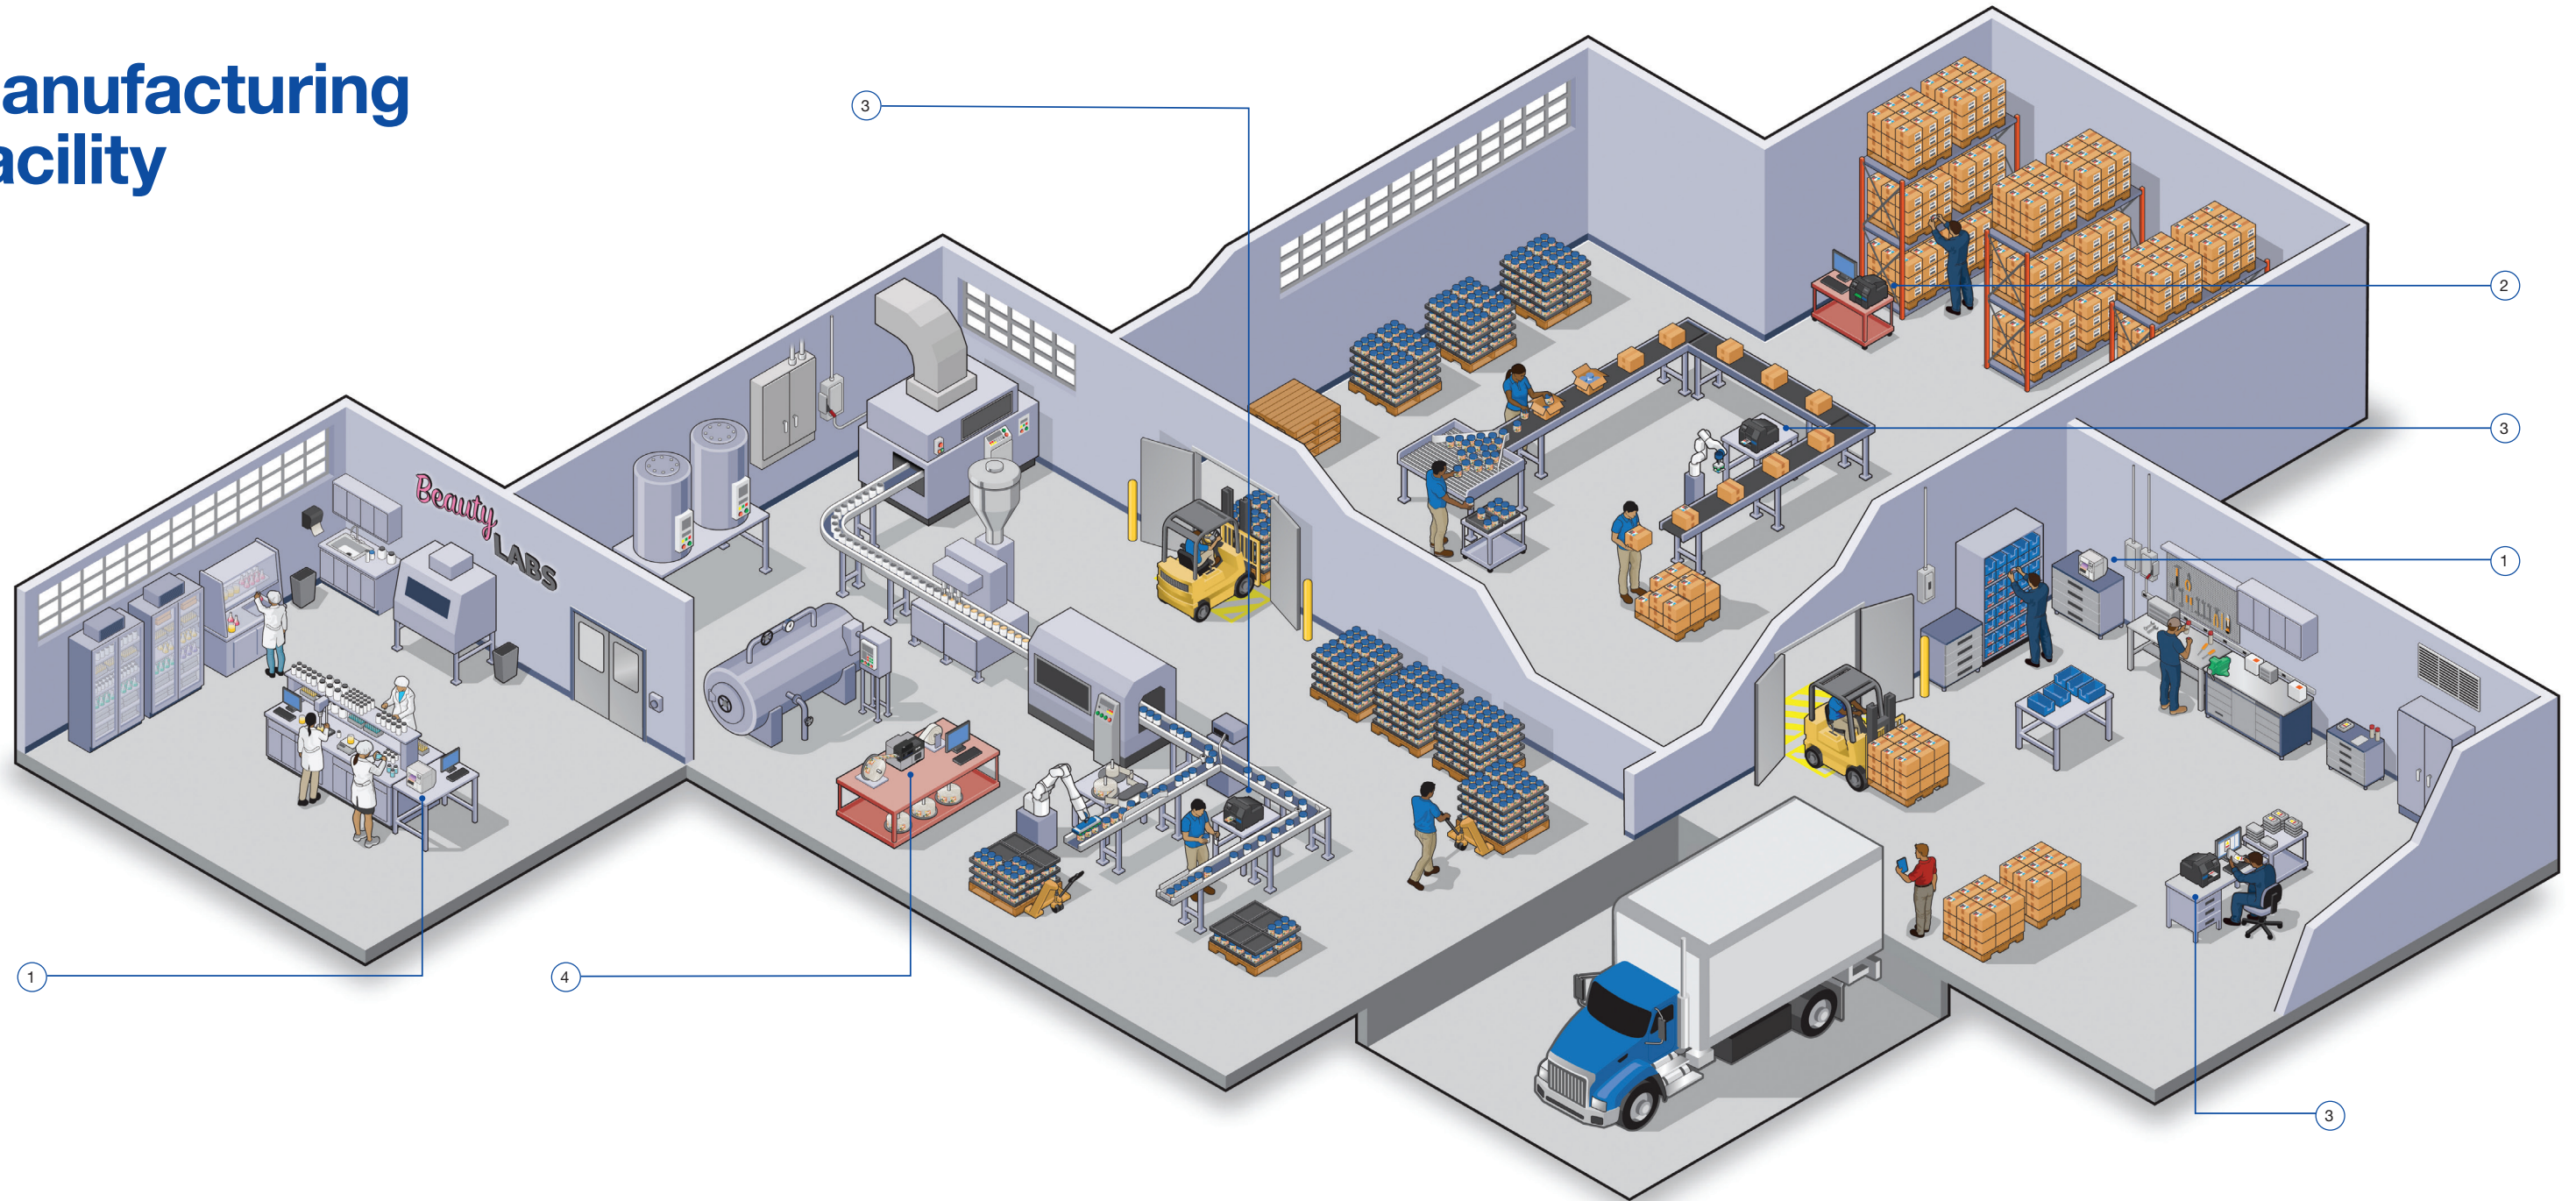

ColorWorks on-demand color label printers are the solution for your business. Powered by PrecisionCore® technology, these innovative solutions produce state-of-the-art, high-quality labels with:

- Full-color capabilities
- Single-step color printing simplicity
- Seamless integration
- Auto Peel-and-Present (CW-C6000P and CW-C6500P only)

Start today and Do Labels Differently with ColorWorks.

# Manufacturing Facility

1

## CW-C4000 Compact Footprint

- Compact design for placement where space is limited
- Print labels up to 4" wide
- Built-in auto cutter and optional Wi-Fi® connectivity add versatility

### Front Office

Print badges for visitor management and security

### Laboratory

Create chemical, material and test labels

### Facilities

Print bin labels, asset management tags and small-tool/part labels

3

## CW-C6000P/C6500P Auto Peel-and-Present

- Built-in auto peeler for speeding up label application or integrating into automated label application systems
- Print labels up to 8" wide
- Higher media and ink capacities than the C4000

### Manufacturing

Print finished product labels

### Packaging

Create external packaging labels and pair with robot applicator

### Shipping

Print label pallets and containers for distribution

2

## CW-C6000A/C6500A Auto Cutter

- Built-in auto cutter for easy variable-length label printing
- Print labels up to 8" wide
- Higher media and ink capacities than the C4000

### Maintenance

Print facility signage, safety signage and equipment asset tags

### Manufacturing

Print finished product labels

4

## CW-C8000 High-Volume

- Features print speeds up to 11.8" per second<sup>1</sup>, ideal for batch printing
- Print labels up to 4" wide
- Highest media and ink capacities in the ColorWorks line

### Manufacturing

Print rolls of finished product labels to be applied via applicator

## Designed for Ease of Use

- Hassle-free—no ribbons or thermal printheads to replace
- Easy thermal replacement—native ZPL II®, Windows®, Mac®, SAP® and Linux®
- Powerful remote management utility

## Powered by PrecisionCore

Advanced printing technology that is simple, smart and clean.

- Simplified for reliable performance
- Highly scalable design enables outstanding image quality
- Heat-Free technology supports low power consumption

<sup>1</sup> Printing in full 1200 x 600 resolution. <sup>2</sup> Printing in Max. Speed Mode, 300 x 600 dpi resolution, 4" (101.6 mm) print width. Print speeds are based on the print engine speed only. Total throughput time for any label depends on factors including label size, file size, print resolution, speed of data transmission, etc. <sup>3</sup> Printing in Max. Speed Mode, 300 x 600 dpi, 3.6" (92 mm) print width. <sup>4</sup> Part of the ink from the first cartridges/packs is used for initializing the printer. Ink usage will vary considerably based on images printed, print settings, paper type, frequency of use, temperature and humidity. Variance may be more pronounced when printing infrequently or predominantly with one ink color. Ink is used for printing and printer maintenance, and all colors must be available for printing. For print quality, a variable amount of ink remains after the "replace ink" indicator comes on. <sup>5</sup> Product comes with a limited warranty with the option to purchase extended service plans up to a total of 5 years of continuous coverage. Limited warranty length varies by model.
