ColorWorks Label Printers

Do Labels Differently™

It's time to make a change to the way you do labels. Efficiency, quality and customization are crucial for your success, and while you may be comfortable with the mayhem of multistep processes and stockpiling preprinted color label rolls—or the blandness of black-and-white—now is the time to break free from the conventional and embrace the new era of label printing.

ColorWorks on-demand color label printers are the solution for your business. Powered by PrecisionCore® technology, these innovative solutions produce state-of-the-art, high-quality labels with:

- Full-color capabilities
- Single-step color printing simplicity
- Seamless integration
- Auto Peel-and-Present (CW-C6000P and CW-C6500P only)

Start today and Do Labels Differently with ColorWorks.

Manufacturing Facility

1

CW-C4000 Compact Footprint

Smaller in size than the other ColorWorks models, the compact yet robust design of the C4000 allows for placement where space is limited.

The C4000 can print at speeds up to 4" per second¹, has a built-in auto cutter and offers optional Wi-Fi® connectivity.

Laboratory

Print chemical, material and test labels

Warehouse

Place printer on mobile power cart to print rack and putaway labels

Maintenance

Print bin labels, asset tags and small-tool/part labels

2

CW-C6000A/C6500A Auto Cutter

The C6000A can print up to 4.25" wide at speeds up to 5" per second², and allows for 8" outer-diameter (OD) roll media. The C6500A can print up to 8.34" wide at speeds up to 5" per second², and allows for 6" OD roll media. The C6000A and C6500A come standard with a built-in auto cutter for ease of variable-length label printing and a GPIO for remote control functionality.

Maintenance

Print facility signage, safety signage and equipment asset tags

3

CW-C6000P/C6500P Auto Peel-and-Present

The C6000P and C6500P feature peel-and-present capability, a feature that's ideally suited for fully automated label application systems, which can help speed up the manual application of on-demand labels. The C6000P can print up to 4.25" wide at speeds up to 5" per second², and allows for 8" OD roll media. The C6500P can print up to 8.34" wide at speeds up to 5" per second², and allows for 6" OD roll media. The C6000P and C6500P come standard with a GPIO.

Manufacturing

Print finished product labels

Printer fully integrates with manual or fully automatic applicator systems

Packaging

Print external packaging labels and pair with robot applicator

4

TM-C7500 High-Volume

Designed for high-volume batch printing, the C7500 can print up to 4.25" wide at blazing speeds up to 11.8" per second³, and allows for 8" OD roll media.

Manufacturing

Print rolls of finished product labels to be applied via applicator

Designed for Ease of Use

- Hassle-free—no ribbons or thermal printheads to replace
- Easy thermal replacement—native ZPL II®, Windows®, Mac®, SAP® and Linux®
- Powerful remote management utility

Powered by PrecisionCore

Advanced printing technology that is simple, smart and clean.

- Simplified for reliable performance
- Highly scalable design enables superior image quality
- Heat-Free technology supports low power consumption
