

LG THIN CLIENTS

Seriously streamlined
lgthinclients.com

ESSENTIAL TO THE CORE

Every aspect of an LG Thin Client delivers the performance a demanding workforce requires, along with the simplified management and built-in security ITDMs crave. By removing productivity obstacles with every device, we are raising expectations for what's possible.

LG 24" AIO Widescreen Thin Client

LG Thin Client Box

OPTIMIZE ANY WORKPLACE

Simplify even high-stakes environments

LG Thin Clients are designed for wherever security, manageability, and streamlined user experience are crucial factors for success. Whether deployed in data-heavy healthcare and finance contexts or cost-sensitive higher education settings, every LG Thin Client has inherent security to protect sensitive data and simplified management to minimize potential downtime.

LG 38" AIO Curved UltraWide® Thin Client

LG Mobile Thin Client

A UNIQUE AND THOUGHTFUL PORTFOLIO

Differentiated form factors

Dedicated to high-quality and useful design, LG Thin Clients offer thin and light form factors, useful functionality, and superior displays—culminating with the 38" AIO UltraWide® Thin Client, the most expansive LG Thin Client available. No matter the configuration, there's an LG Thin Client for any work preference or environment.

LOWER OPERATING COSTS WITHOUT LOSING PERFORMANCE

Easy on the budget

Already less expensive to deploy, integrate, and manage, LG Thin Clients go even further by consuming less energy than traditional I.T. fleets, lowering your overall carbon footprint and letting you reinvest valuable savings elsewhere.

UNMATCHED SUPPORT FOR UNPARALLELED PRODUCTS

Focus on your business, not the technology. With LG service options, you are in good hands with speedy customer support that's tailored for your needs and extends throughout the entire product lifecycle.

LG Enhanced Service Plans help protect commercial displays purchased for the hospitality, health care, and digital signage sectors with extended service coverage that brings peace of mind.

QuickSwap (Advanced Exchange) minimizes device downtime by offering accelerated return shipping and delivery with Next Business Day or 2nd Business Day options.

White-Glove Quick Swap (Advanced Exchange) pairs clients with an LG authorized technician who will meet you on-site for the removal, return, and reinstallation of products.
