

SpacePole Outdoor Kiosk for Elo 2799L

Outdoor Self-Service included

Bring self-service to the earliest point of contact

Self-Service has revolutionised the indoor customer experience. However, that journey begins outdoors. Join up that customer interaction with our SpacePole Outdoor Kiosk for Elo's 2799L display, which integrates state-of-the-art self-service technology in a modular, configurable and customisable platform. Perfect for outdoor applications as diverse as the forecourt, admission check-in, digital advertising, self-ordering, information points, way finding and many more besides, this solution puts information in the hands of your customers, at that important earliest point of contact.

Compatibility

The SpacePole Outdoor Kiosk is the perfect companion for the Elo 2799L open frame touch screen, as well as the Verifone UX700 or the Pax IM30.

Features

- **Weatherproof - Mission ready:** Featuring weather-resistant coating and paint, certified with an IP55 rating
- **Upgradable:** The modular build enables upgrades of smaller parts to include new peripherals in the future
- **Mounting options:** This outdoor kiosk offers the option for wall or floor mounting, with or without peripherals
- **Customisable:** Add your logo, brand colour or other brand identity features to the kiosk

Benefits

- **Enhance the customer experience:** Reduce wait times and provide instant access to information and services by guiding your customers through the self-service journey, starting outdoors
- **Adaptability:** To allow businesses to stay relevant and responsive to evolving customer needs
- **Flexibility:** Your configuration can be floor or wall mounted providing one standard platform across your outdoor self-service offerings
- **Make it your own:** Join the dots from your unique indoor self-service journey with the same expression, outdoors
