

Embrace technology to enhance the patient experience.

Healthcare kiosks empower patients to be part of their care. Kiosks streamline operations, reduce costs, and can boost patient satisfaction by enabling staff to refocus their attention on patient care.

Kiosk benefits

- Automate patient check-in processes and reduce wait times
- Refocus staff on high-value tasks
- Drive higher payment volume with self-service
- Integrate pre-visit mobile apps for smooth transition to in-person services
- Decrease incidents of duplicate patient records
- Improve rate of co-pay collection
- Dynamically link to all EMR/EHR systems to improve data integrity

Empower patients with self-service.

Kiosk features

Purpose-built for healthcare, this solution is flexible, scalable and can be modified for the individual needs of each healthcare facility.

Designed with edge-to-edge glass and compatible with hospital-grade cleaners, this solution ensures that facilities can quickly and painlessly create a best-in-class experience for patients as soon as they walk in the front door.

Included with the kiosk:

- Choice of Elo 22-inch Windows I-Series Touch Computer or Elo 2203LM Medical-Grade Touch Monitor + bring your own compute device
- ADA compliant Storm navigation pad
- Flatbed Zebra scanner for drivers license parsing and insurance card capture
- Standard static sign "Check in Here"
- Powered USB hub
- Power strip cord
- Black and white powder coat paint
- White LED lighting

Kiosk customizations & additional features:

- Peripherals - payment terminals, cameras and temp scanners
- Custom branding, signage and lighting options
- Corded headphones with hanger
- Thermal or wrist-band printers
- Side shelf
