

Convenience of a Total Solution

Epson Media for ColorWorks

Epson Media for ColorWorks is high-performance, durable label media for use with ColorWorks printers. Available in 3 types (premium matte paper, high gloss paper, and durable matte synthetic) and standard sizes.

Features:

- Excellent image quality – photo-quality prints and scannable barcodes
- Durable prints – resistant to smearing, fading, water, and many chemicals
- Quality assurance – all Epson products go through rigorous testing for print quality, paper feeding, and durability

Save time and hassle with a known media that works

FAQ's

- **Epson media** (shown above) is an Epson product and has the Epson logo on it. It is ordered and fulfilled through the Epson ProFocus channel.
- **Epson Compatible Media** is made by major media manufacturers and not by Epson. The manufacturers have done testing and found them to be compatible with Epson ColorWorks printers. There is a wide variety including: clear, semi-gloss and uncoated media. The purpose of the Compatible Media list is to help customers find a wide variety of media solutions that work with ColorWorks printers.
- *Note:* Every label application is different. You should always test and verify that the media meets your performance and durability requirements.
