Seamless Operations & Visibility
Infinea Tab M

MOBILIZE YOUR ENTERPRISE

Transform the latest iOS tablets into mobile workstations and empower frontline workers with the ability to access information, manage business operations, and assist customers or patients – wherever they are.

Built with USB-C connectivity and an intuitive SDK for easy integration, the Infinea Tab M (ITM) is a mobile data capture device with a Magnetic Stripe Reader and an optional 1D/2D barcode scanner and/or RFID reader. With a connected device and untethered workflows, employees can maximize productivity and provide the best possible experiences for their clientele. iOS devices and ITM accessories sold separately.

Healthcare   **Hospitality**   **Retail**   **Supply Chain**   **Travel**

1D/2D BARCODE SCANNER

From QR to linear barcodes, the ITM has options for a variety of scanning needs. Expand your workflow with the ability to capture data by scanning one and two dimensional barcodes in any direction, for both digital and print.

CONTACTLESS RFID

Capture data faster. Enable line busting, ticketing, expedited check-in, inventory visibility, and more with an optional Radio Frequency Identification (RFID) tag card reader. The reader incorporates several RFID formats depending on the model and has read and write capability.

SMARTER GUEST SERVICES

With a variety of Loyalty and Ticketing options, the ITM improves guest experiences through speed and efficiency. Rapidly process transactions with a bidirectional Magnetic Stripe Reader (MSR) as well as RFID reader. Supports Apple VAS, Google Smart Tap applications.

PASS-THROUGH CHARGING

No more disconnecting and having to charge both the peripheral and iOS device. Reduce down-time and clutter by charging both iOS device and ITM through a singleUSB-C charging port.

LED INDICATORS

The ITM features intuitive haptics for intelligent workflows. The device includes two LED lights for battery and device status and four LED lights for contactless RFID notifications. It also includes an electromagnetic buzzer for important alerts.

SEAMLESS INTEGRATION

With the intuitive Infinea SDK for easy software integration, converting your iPad into a powerful mobile solution has never been easier. The ITM was designed specifically for iOS and is compatible with the iPad Mini 6th Gen and iPad 10th Gen.
