

LINKSMART®
WITH *San-a-Key®*

Disinfectable Keyboard with Mix 'n Match Security Features

All-in-one mix-and-match solution for the clinical desktop

Desktop infection control and multifactor authentication

KSI-1700 SERIES KEYBOARD

- ✓ Integrated cleaning button helps prevent the spread of germs
- ✓ FIPS 201 compliant biometric fingerprint sensor
- ✓ Top quality dual band HID card reader
- ✓ All functions routed through one USB cable
- ✓ Strong multifactor authentication for healthcare

KSI 1700 series keyboards feature an integrated desktop infection control system and multifactor authentication that helps protect PHI

rfIDEAS WaveID® Plus dual band card reader facilitates contactless logon and reads four card types

Pro-grade, silicon-surfaced HID® Crossmatch® fingerprint sensor offers strong authentication

Our red finish is perfect for identifying downtime workstations amid a power outage or scheduled maintenance

Easy-clean, low-profile keys speed workflow

The LinkSmart® cleaning button temporarily disables keys for efficient surface disinfection

Our bright white finish option helps clinicians spot surface contaminants
