

# Get Every Member of the Home Health Care Team on the Same Page

Zebra healthcare mobile devices provide every member of the home care team with the capabilities they need — without missing a beat.

## A tablet designed for mobile health teams

Whether your caregivers need to update clinical documentation on the EMR or capture images to document patient progress, Zebra's ET45-HC tablets are ready to go to work. These powerful devices go well beyond consumer-grade tablets by putting all the capabilities workers need in the palm of their hand — so they can streamline their tasks and focus on client care.

### Access everything you need right out of the box:

Medical-grade plastics stand up to frequent cleaning and sanitizing.

Available 2-in-1 keyboard adds the functionality of a laptop with a smooth, responsive feel.

Fast, reliable 5G/Wi-Fi 6 wireless connections and computing power to run all clinical applications.

A multi-year lifecycle, guaranteed support for six years from the initial sale date.

**Give your home care teams the ideal tablet to enable the highest quality care**

## A smartphone-like device for care team communications

If you're looking for a solution that can help you enhance staff communications and collaboration, look no further than the TC26-HC. This pocket-sized powerhouse delivers desktop-like performance on all your applications and reliable operation through the longest and most challenging shifts.

### It's the answer you need for reaching the right person at the right time, with features that include:

A unibody design for extra impact protection of the sensitive electronics.

Intuitive Android™ operating system and consistent and predictable user interface.

Robust Cellular and Wi-Fi connectivity to connect your workers wherever they are.

Long lifecycle with OneCare Support Service provides up to six years of security updates.

**Give your teams the features they need to stay in touch and deliver the best care**
