

ZEBLOK NEXT GEN DIGITAL FOUNDATION FOR AI

- Hardware: SimplyNUC Server
- Software: Zeblok Ai-MicroCloud Manager
- One-liner: Manage and orchestrate all-together!
- Solution: With the SimplyNUC Server and Zeblok Ai-MicroCloud® Manager enables the enterprise administrator to define role-based access control, infrastructure plans, define Namespaces and add accessible data centers. Zeblok provides metering information for resource utilization for billing or charge back purposes.
